

HEROES

Monty Rakusen

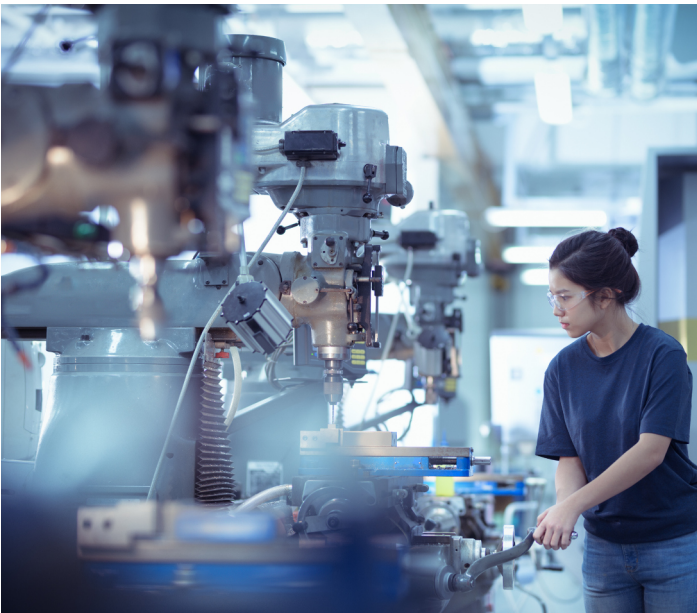

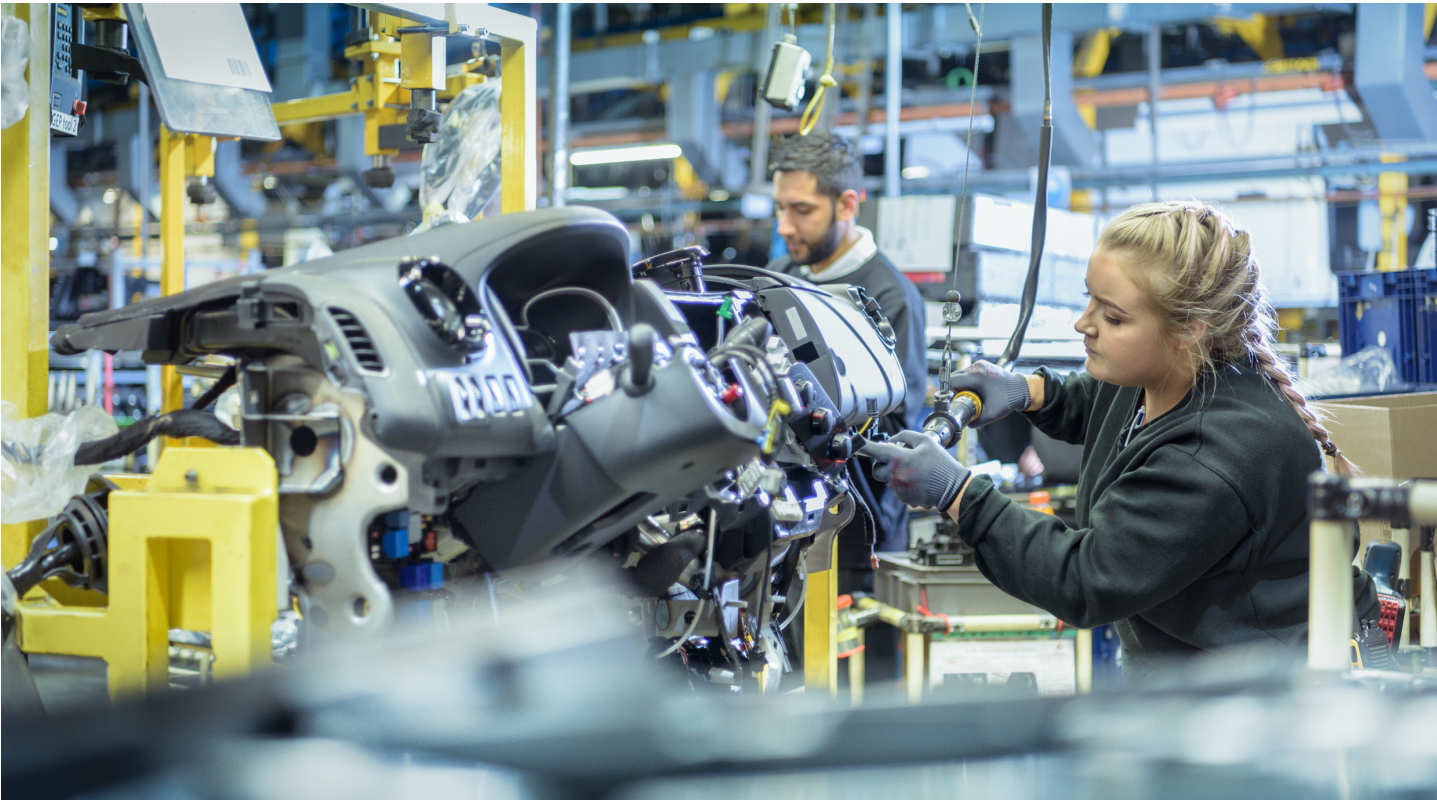

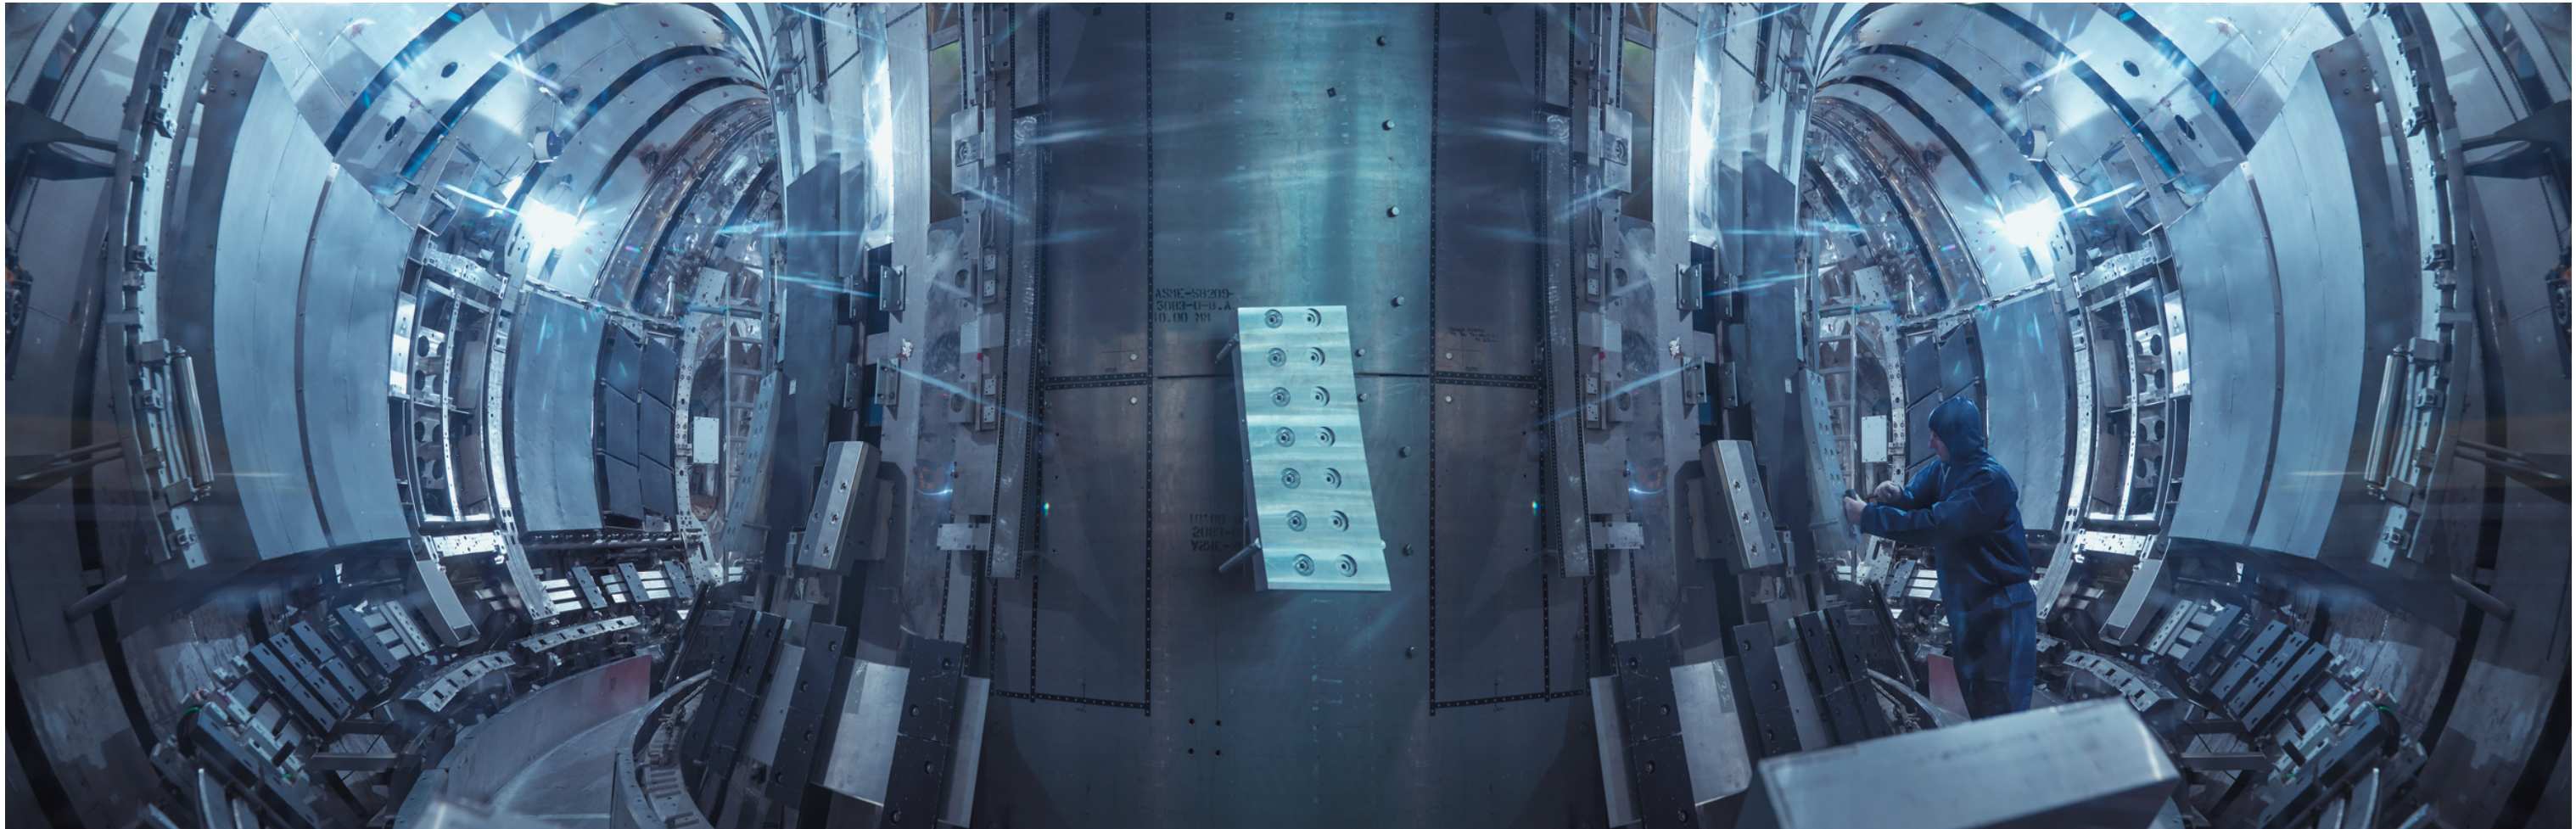

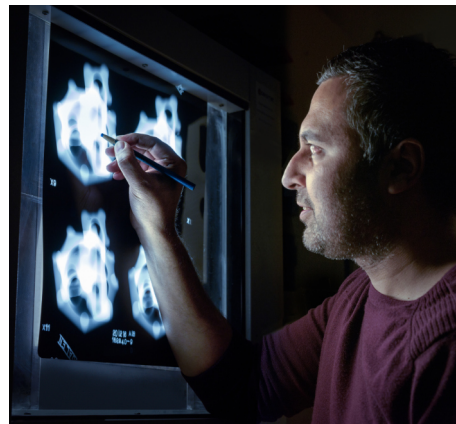

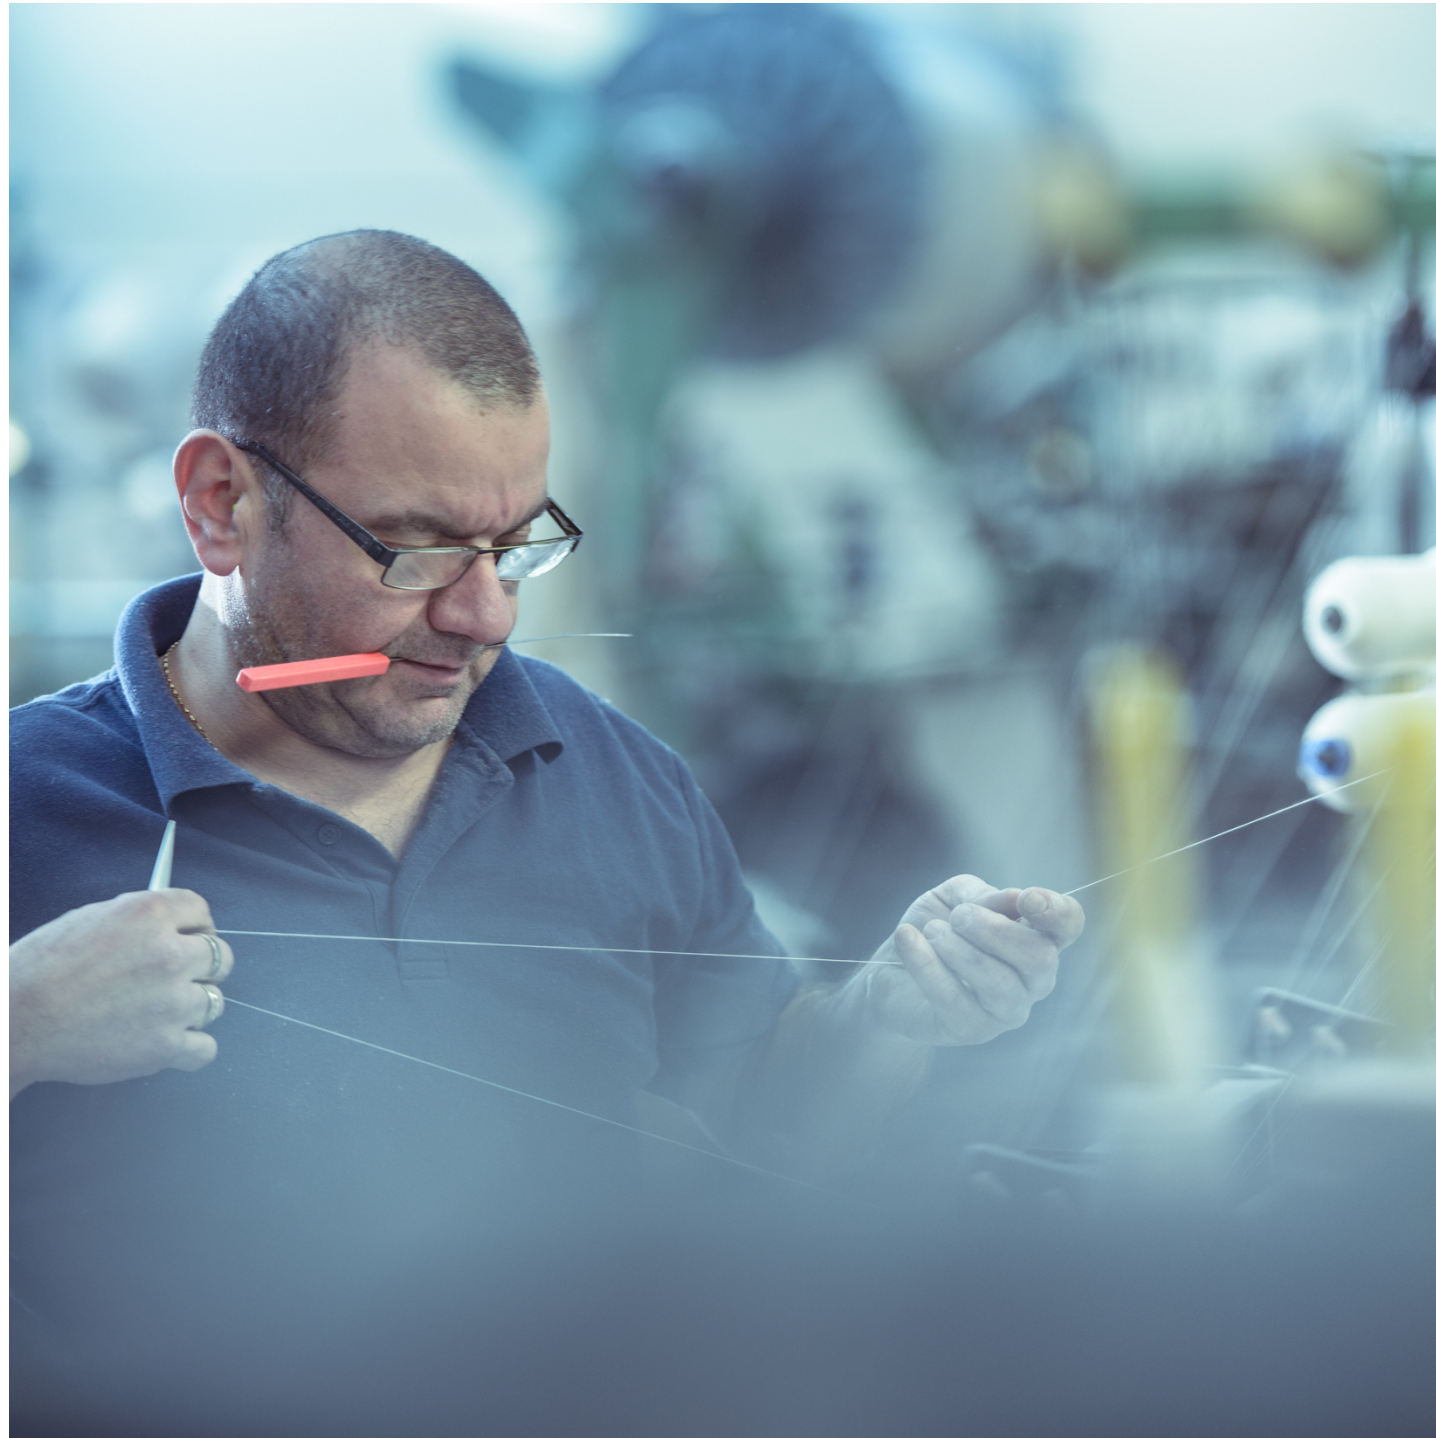

HEROES

Monty Rakusen

"These are the people that make things. The skilled and brave, the heroes. The man pouring molten steel or the woman testing a satellite, the man programming a robot or the woman checking the nuclear reactor. These are the people that make our world go round and these are heroes".

These images are from my self-commissioned collection that I have been working on since 2008. I am passionate about industry and have become a specialist in this field.

I am looking for new collaborations and locations. Bring out your heroes for me to photograph!
